Build your business with **take care**.[®] You'll have the competitive edge for flex benefits.

take care provides you what you need to make flex plans work better for employees, better for employers – and yes – better for you.

- Employee satisfaction and participation will increase with **take care's** proven enrollment and communication program.
- Whether participants are enrolled in a single account or multiple accounts (FSA, HSA, HRA, and Commuter), all accounts are accessed with a single benefits card and account transactions are viewed at a single website and IVR.
- Participant flex card swipes are approved using the same "real-time" account balance information that your claims processors use to pay paper claims.
- There is no uploading or downloading between a separate administration system and a flex benefits card system because a single system – WinFlex[®]One – handles everything.
- Flex card swipes – electronically auto-substantiated for co-pays, retail (IIAS) purchases, and recurring expenses – and manual transactions are all done through WinFlexOne.
- Reporting, plan activity, eligibility, and card suspension, as well as the employer and employee websites are all integrated by WinFlexOne.

TPAs, health plans, and payroll companies look to WinFlexOne for custom Flex Benefits solutions that help them compete and win in their market space. We've been creating solutions for over 20 years.

We'll even customize your flex program, including a flex benefits card, with your brand!

With **take care**[®]...
there's no assembly required.

Proven employee educational tools that will increase enrollments.

When employees understand how their flex benefits work and the value their flex benefits provide, they are more likely to take full advantage of them.

If you were to imagine the ideal benefits communication plan, you'd probably envision a comprehensive, yet easy to use program that makes everybody feel good.

So here it is, **take care**, a flexible benefits program that's perfect for everyone – employees, employers, and you.
